the moral obligation of green architecture, page 15

How can we shape the future of sustainable architecture?

KREOO

Sculpture balances art with culture. Art balances style with science. Kreoo aspires and succeeds in doing both.

A definition of sculpture: *"the art of making two- or three-dimensional representative or abstract forms"*. A unique piece of art is timeless; Kreoo delve into the world of marble interiors. Venetian vanity, with a nod to the beautiful Italian marble which adorns its pieces. An interior can reign in supremacy when it offers a majestic style. Marble is timeless in its composition, yet it still allows for a modern entitlement.

Each project Kreeo develops is a work
of art, crafted to perfection in
distinct colour schemes and marble
variations

"Kreoo is Decormarmi's intentional design brand."

Exploring the finest marble patterns across multiple designs means Kreoo conquered the very foundations of modern exquisite design. Interior design must effortlessly merge with contemporary living in a modern world. Crafted in Italy, Kreoo lifts the veil of chromatic formal language.
