Kreoo Hug Washbasin

When space is an issue, but style is not optional, this 4-foot-tall freestanding sink, designed by Matteo Nunziati for Kreoo, is a powerful statement to the natural world. “It’s carved out of a marble block, and the wood shelving is added for accessories and storage,” Dwayne says. Pair two of them in a bathroom for his-and-hers functionality. Available in eight marbles and with walnut or eucalyptus wood inserts.
