## Holly

Design: Christophe Pillet

**C**rafted from a single marble block with a sinuous and soft profile: this is the Holly seating collection designed by Christophe Pillet. Holly is a stunning tub chair: it features a carved and shaped shell, with an ergonomic and embracing skin, that creates an incredible interplay of curves and levels of depth. A soft upholstered cushion – in buffed natural grain leather or high-quality fabric – and saddle stitch décoration enrich the stone seating. This part ideally turns into a symmetric line: it is the unique compact horizontal element, highlighting the two opposite empty spaces. The base follows the chair's elegant curve shape and contributes to defining the monolithic profile of the product.

Holly is suitable both for indoor and outdoor use and it can be customised in Travertino, Calacatta Arabescato, or Bianco Carrara.
